Lanley Homes

Lanley have been building high quality low volume housing since 1988 and aim to provide a product that is more bespoke than traditional volume house building.

Lanley Homes are the housing development arm of a much wider property group and we are able to draw on the skills and expertise of that wider group whenever required.

Lanley pride themselves on the quality of their developments as well as the after care provided once a purchaser has moved into their new home. Our finished homes benefit from a number of features that you would normally only expect to find as extra cost items in a new build home. The standard specifications of our homes meet and go beyond those of many other house builders, including bespoke kitchens with appliances included. We want you to move into your new home feeling that you received a great product at a good price without having to continually pay extra for the home you wanted.
